2023 Predator Harvest Incentive Program

Start 10/17/2022

To reduce predation on moose in the Galena area, the Louden Tribal Council is sponsoring a Predator Harvest Incentive Program.

For each legally harvested wolf taken, a payment of \$400.00 will be made to the successful trapper/hunter. The wolf will remain the property of the trapper/hunter to do with whatever they choose:

THE FOLLOWING RULES APPLY:

- 1) Participants are required to be a resident of Galena to participate in the program.
- 2) The hide must be marked or the kill witnessed by a resident of Galena. This will prevent the unlikely event of a wolf being submitted more than once for payment.
- 3) A copy of the sworn affidavit by the hunter will be sufficient proof of harvest. The wolf must be taken BEFORE May 1, 2023.
- 4) The wolf must have been legally harvested under a valid **State of Alaska Trapping or Hunting License**. The wolf will not need to be brought into the Tribal Council Office but requires visual proof from a Tribal Council Member.
- 5) Please complete the LTC Predator Harvest Incentive form, noting the specific location of where the wolf was taken, to track the harvest and effectiveness more efficiently for the program.
- 6) A cap of \$5,000.00 has been set by the Council. Once the max has been reached, the LTC will announce the closing of the program on KIYU.
- 7) If anyone ABUSES this program, you will not be eligible for future wolf incentive programs.

Please observe all applicable laws participating in this program

and GOOD LUCK with the trapping/hunting season.
